To Whom It May Concern:

I had the pleasure of supervising Mike Butler when he was a Technical Education Teacher at Burlington Middle School. I found Mike to be an innovative and compassionate teacher who constantly looked for new ways to motivate and excite students. Mike was a leader in introducing cutting edge computer technology and aeronautics into the classroom. His classroom management skills and ability to relate to students, staff and parents were excellent.

Mike has the type of personality that makes him a natural leader. As an administrator he will be able to build consensus within his staff to bring about meaningful change. His organization and planning skills will also be a tremendous asset. Mike will bring a wealth of experience and tremendous energy to any district lucky enough to secure his services. I know that Mike is dedicated to education and will bring strong, mature leadership to the field. I can give him my highest recommendation without reservation.

Sincerely,

Daniel J. Armstrong, Principal
